

CLIENT ALERT

IRS Tightening of Inversion Rules Demands Monitoring

September 29, 2014

IRS Notice 2014-52, issued September 22, takes aim at so-called "inversions," tightening the tax rules and restricting certain tax benefits, as explained in the [linked alert](#). While the notice does not change the existing, parallel rules restricting the ability of inverted companies to obtain government contracts, government contractors should continue to monitor developments.
