

## FOR IMMEDIATE RELEASE

# Crowell & Moring's Gabriel M. Ramsey Named Top Cyber Lawyer by the *Daily Journal*

**San Francisco – January 29, 2019:** The *Daily Journal* has named [Gabriel M. Ramsey](#) a 2019 Top Cyber Lawyer. The award recognizes 15 attorneys at the cutting edge of cybersecurity who advise companies on best practices and on navigating legal and regulatory mandates on privacy and data security.

The *Daily Journal* highlighted Ramsey's development of cybercrime deterrence plans for his clients. Most notably, he counseled Microsoft Corp. when a foreign hacking group called "Strontium" or "Fancy Bear"—believed to be associated with Russia's military intelligence agency, the GRU—attacked the company and its political, government, and defense customers. By navigating the federal hacking, trademark, and state laws, Ramsey enabled Microsoft to assist victims in mitigating the threat and avoid being infected by new attacks.

Ramsey, a partner in the firm's Litigation, Intellectual Property, and Privacy & Cybersecurity groups, told the *Daily Journal* that his practice is litigation focused, which goes hand in hand with breach deterrence and enforcement. "My role often is to identify actors and then use legal tools to hold them accountable. Part of the role is to be an investigator, and that part is fascinating," Ramsey said.

No aspect of this advertisement has been approved by the Bars of, or any courts in, the jurisdictions in which the lawyers are admitted to practice.

### About Crowell & Moring's Privacy & Cybersecurity Group

Crowell & Moring's Privacy & Cybersecurity Group guides clients across multiple industries through the myriad federal, state, and international laws governing the collection, use, transfer, and protection of data. The Group understands the internal and external threats that clients face to their data and systems and provides end-to-end support, from risk mitigation to incident response and litigation defense. The Group provides practical advice that permits our clients to address privacy and cybersecurity issues in a manner that reflects their business needs and risk exposure. The Group integrates with nearly every other practice group in the firm, including intellectual property, corporate, insurance, white collar, trade secrets, health care, energy, transportation, and government contracts to address the full range of privacy, cybersecurity, and litigation risks faced by clients. [The Group publishes the Data Law Insights blog](#), which includes legal insights on navigating privacy, data protection, cybersecurity, information governance, and e-discovery.
