## **SUPPLEMENTARY INFORMATION:**

- I. Abstract: Duty rates on imported goods are established by Congress in the Harmonized Tariff Schedule of the United States (HTS). Temporarily duty suspensions and reductions are set forth in chapter 99, subchapter II of the HTS, although no such suspensions or reductions are currently in effect. In large part due to the Commission's role in maintaining and publishing the official HTS, pursuant to the Omnibus Trade and Competitiveness Act of 1988, the Commission has supplied memoranda containing factual information concerning individual bills introduced in many sessions of Congress to seek such duty suspensions or reductions.

The new Act referenced above requires the Commission to establish a process to receive petitions that will take the place of individual miscellaneous tariff bills, and specifies the contents of such petitions. The Act also provides that these petitions must be made available on the Commission's website so that public comment on each one may be filed. The Act specifies the contents of Commission preliminary and final reports and requires the Commission to make several determinations concerning the petitions. Lastly, the Act requires the Commission to make particular recommendations concerning the petitions and provide the necessary information to Congress that will permit the Congress to decide which such petitions should be included in a miscellaneous tariff bill. The Act specifies the schedule for conducting each cycle of collections of petitions and for the Commission to submit a report to the House Committee on Ways and Means and the Senate Committee on Finance containing information and its determinations.

- II. Method of Collection: Each interested party will be required to establish a user web account on the Commission website to submit a petition requesting the creation or renewal of miscellaneous tariff provisions in the HTS comment on a previously submitted petition.
- III. Request for Comments: Comments are invited on (1) whether the proposed collection of information is necessary; (2) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information, including through the use of automated collection techniques or other forms of information technology.

The draft forms and other supplementary documents may be downloaded from the USITC website at <http://www.ustic.gov/mtbps>.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they will also become a matter of public record.
