Plaintiff,

v.

HARTFORD FINANCIAL SERVICES
GROUP, INC., HARTFORD FIRE
INSURANCE COMPANY and SENTINAL
INSURANCE COMPANY, LIMITED,

Defendants.

Docket No.

**COMPLAINT and
DEMAND FOR JURY TRIAL**

Plaintiffs SA Hospitality Group, LLC, 1000 Madison Avenue LLC, Astoria Cakes LLC, Café Focaccia, Inc., Realtek LLC, SA Midtown LLC, Bailey’s Restaurant LLC, SA Special Events, Inc., SASE LLC, Eighty Third And First LLC, 265 Lafayette Ristorante LLC, Felice Gold Street LLC, SA 61st Management LLC, SA York Ave LLC, SA Third Ave Café LLC, SABF LLC, Felice Chambers LLC, and Felice Water Street LLC (together “SA Plaintiffs”) by way of Complaint against Defendants The Hartford Financial Group, Inc., and Hartford Fire Insurance Company, (together “Defendants” or “Hartford”), allege as follows:

INTRODUCTION

1. On March 11, 2020 World Health Organization Director General Tedros Adhanom Ghebreyesus declared the COVID-19 outbreak a worldwide pandemic: “WHO has been assessing this outbreak around the clock and we are deeply concerned both by the alarming levels of spread and severity, and by the alarming levels of inaction. We have therefore made the assessment that COVID-19 can be characterized as a pandemic.”¹

2. On March 16, 2020, the Centers for Disease Control and Prevention, and members of the national Coronavirus Task Force issued to the American public guidance, styled as “30 Days to Slow the Spread” for stopping the spread of COVID-19. This guidance advised individuals to adopt far-reaching social distancing measures, such as working from home, avoiding shopping trips and gatherings of more than 10 people, and staying away from bars, restaurants, and food courts.²

¹ See <https://www.who.int/dg/speeches/detail/who-director-general-s-opening-remarks-at-the-media-briefing-on-COVID-19-11-march-2020>

² https://www.whitehouse.gov/wp-content/uploads/2020/03/03.16.20_coronavirus-guidance_8.5x11_315PM.pdf

3. Following this advice for individuals to adopt far-reaching social distancing measures, many state government administrations across the nation recognized the need to take steps to protect the health and safety of their residents from the human to human and surface to human spread of COVID-19. As a result, many governmental entities entered civil authority orders suspending or severely curtailing business operations of non-essential businesses that interact with the public and provide gathering places for the individuals. Currently, almost all states within the United States have issued some sort of “stay-at-home” order and ordered private non-essential business operations to close.

4. The result of these far-reaching restrictions and prohibitions has been catastrophic for most non-essential businesses, especially restaurants and other foodservice businesses, as well as retail establishments, entertainment venues, and other small, medium, and large businesses who have been forced to close, furlough employees, and endure a sudden shutdown of cash flow that threatens their survival.

5. Most businesses insure against such catastrophic events like the current unforeseen COVID-19 pandemic through all-risk commercial property insurance policies. These policies promise to indemnify the policyholder for actual business losses incurred when business operations are involuntarily suspended, interrupted, curtailed, when access to the premises is prohibited because of direct physical loss or damage to the property, or by a civil authority order that restricts or prohibits access to the property. This coverage is commonly known as “business interruption coverage” and is standard in most all-risk commercial property insurance policies.

6. Defendants, and most insurance companies who have issued all- risk commercial property insurance policies with business interruption coverage, are denying the obligation to pay for business income losses and other covered expenses incurred by policyholders for the physical

loss and damage to the insured property from measures put in place by the civil authorities to stop the spread of COVID-19 among the population. This action seeks a declaratory judgment that affirms that the COVID-19 pandemic and the corresponding response by civil authorities to stop the spread of the outbreak triggers coverage, has caused physical property loss and damage to the insured property, provides coverage for future civil authority orders that result in future suspensions or curtailments of business operations, and finds that Defendants are liable for the losses suffered by policyholders.

7. In addition, this action brings a claim against Defendants for their breach of their contractual obligation under common all-risk commercial property insurance policies to indemnify Plaintiffs and others similarly situated for business losses and extra expenses, and related losses resulting from actions taken by civil authorities to stop the human to human and surface to human spread of the COVID-19 outbreak.

8. Plaintiffs bring this action on behalf of a proposed class of policyholders who paid premiums in exchange for business insurance policies that included lost business income and extra expense coverage.

JURISDICTION AND VENUE

9. This Court has jurisdiction over this action pursuant to 28 U.S.C. § 1332(d) in that this is a class action in which the amount in controversy exceeds \$5,000,000, exclusive of interest and costs, and at least one member of the putative class is a citizen of a different State than that of one of the Defendants.

10. Venue is proper in this District pursuant to 28 U.S.C. §1391(b) in that Defendants do business in this District and thus reside in this District, in accordance with 28 U.S.C. §1391(c).

PARTIES

11. Plaintiff SA Hospitality Group, LLC is a New York limited liability company with its principal place of business in New York, New York. It is a holding company that owns and operates a number of restaurants in New York and Florida through subsidiaries. SA Hospitality Group's restaurants are dine-in restaurants, wine bars and cafes whose success depends upon patrons being able to consume the products offered at the respective facilities at that facility.

12. Plaintiff 1000 Madison Avenue LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group, LLC.

13. Plaintiff Astoria Cakes LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

14. Plaintiff Café Focaccia, Inc. is a New York corporation with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

15. Plaintiff Realtek LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

16. Plaintiff SA Midtown LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

17. Plaintiff Bailey's Restaurant LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

18. Plaintiff SA Special Events, Inc. is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

19. SASE LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

20. Plaintiff Eighty Third And First LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

21. Plaintiff 263 Lafayette Ristorante LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

22. Plaintiff Felice Gold Street LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

23. Plaintiff SA 61st Management LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

24. Plaintiff SA York Avenue LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

25. Plaintiff SA Third Avenue Café LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

26. Plaintiff SABF LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

27. Plaintiff Felice Chambers LLC is a New York limited liability company with its principal place of business in New York, New York, and is a subsidiary of SA Hospitality Group LLC.

28. Plaintiff Felice Water Street LLC is a New York limited liability company with its principal place of business in Brooklyn, New York, and is a subsidiary of SA Hospitality Group LLC.

29. Defendant The Hartford Financial Services Group, Inc. (“Hartford Financial”) is a Delaware corporation with its principal place of business in Hartford, Connecticut. It owns subsidiaries, directly and indirectly, that issue, among other things, property insurance.

30. Defendant Hartford Fire Insurance Company (“Hartford Fire”) is a Connecticut corporation with its principal place of business in Hartford, Connecticut. Hartford Fire is a subsidiary of Hartford Financial and is duly qualified and licensed to issue insurance in the State of New York and other states.

31. Hartford Fire issued to SA Plaintiffs Policy No. 13 UUN BL4042 K1 for the policy period between June 1, 2019 and June 1, 2020 (the “Policy”).

FACTUAL BACKGROUND

A. The Global COVID-19 Pandemic

32. Viruses of the family Coronaviridae, such as Middle East respiratory syndrome (MERS) coronavirus (MERS-CoV) and severe acute respiratory syndrome (SARS) coronavirus

(SARS-CoV), have been responsible for the loss of human life since at least 2002 and were identified in several animal hosts.³

33. In December 2019, an initial cluster of nine patients with an unknown cause of viral pneumonia was found to be linked to the Huanan seafood market in Wuhan, China, where many non-aquatic animals such as birds were also on sale. However, one of the patients never visited the market, though he had stayed in a hotel nearby before the onset of the illness.⁴

34. By January 2020, genetic sequencing from patient samples was conducted to identify a novel virus, SARS-CoV-2, as the causative agent for the pneumonia cluster.⁵ SARS-CoV-2 is an RNA virus, with a crown-like appearance under an electron microscope because of glycoprotein spikes on its envelope. Among the functions of the structural proteins, the envelope has a crucial role in virus pathogenicity as it promotes viral assembly and release.⁶

³ See <https://www.cdc.gov/coronavirus/2019-ncov/downloads/genomic-characterization-of-2019-nCoV-Lancet-1-29-2020.pdf> (There are four genera of CoVs: (I) α -coronavirus (alphaCoV), (II) β -coronavirus (betaCoV) probably present in bats and rodents, while (III) δ -coronavirus (deltaCoV), and (IV) γ -coronavirus (gammaCoV) probably represent avian species)

⁴ See <https://www.mdpi.com/1660-4601/17/8/2690> (As a typical RNA virus, the average evolutionary rate for coronaviruses is roughly 10–nucleotide substitutions per site per year, with mutations arising during every replication cycle. This finding suggests that 2019-nCoV originated from one source within a short period and was detected rapidly. However, as the virus transmits to more individuals, constant surveillance of mutations arising is needed.) See Lu R, Zhao X, Li J, et al. Genomic characterisation and epidemiology of 2019 novel coronavirus: implications for virus origins and receptor binding. *Lancet* (London, England). 2020 Feb;395(10224):565-574. DOI: 10.1016/s0140-6736(20)30251-8. (This finding suggests either possible droplet transmission or that the patient was infected by a currently unknown source. Evidence of clusters of infected family members and medical workers has now confirmed the presence of human-to-human transmission.)

⁵ <https://www.mdpi.com/1660-4601/17/8/2690>

⁶ See <https://www.mdpi.com/1660-4601/17/8/2690> (To address the pathogenetic mechanisms of SARS-CoV-2, its viral structure and genome must be considered. Coronaviruses are enveloped positive strand RNA viruses with the largest known RNA genomes—30–32 kb— with a 50 -cap structure and 30 -poly-A tail.)

35. The first confirmed case of the virus outside China was diagnosed on January 13, 2020 in Bangkok, Thailand with the number of cases exceedingly increasing worldwide. On January 30, 2020, the World Health Organization (WHO) declared the SARS-CoV-2 outbreak constituted a public health emergency of international concern, and by February 11, 2020, the virus was named “COVID-19” by the WHO Director-General.⁷ As of April 15, 2020, the WHO reports a confirmed 1.9 million cases of COVID-19 globally and over 123,000 deaths, with the United States dealing with more than 578,000 confirmed cases and 23,000 deaths - more than any other country.⁸

36. The clinical features of COVID-19 vary from asymptomatic forms to fatal conditions of severe respiratory failure that requires ventilation and support in an intensive care unit (ICU). Pneumonia has been the most frequent severe manifestation of COVID-19, with symptoms of fever, cough, dyspnea, and bilateral infiltrates on chest imaging.⁹ There are no specific treatments recommended for COVID-19, and no vaccine is currently available; so understanding the complexities of COVID-19 is ongoing.¹⁰

⁷ <https://www.mdpi.com/1660-4601/17/8/2690>

⁸ <https://covid19.who.int/>

⁹ See <https://www.mdpi.com/1660-4601/17/8/2690> (Asymptomatic infections have also been described, but their frequency is unknown...Other, less common symptoms have included headaches, sore throat, and rhinorrhea. Along with respiratory symptoms, gastrointestinal symptoms (e.g., nausea and diarrhea) have also been reported, and in some patients they may be the presenting complaint.)

¹⁰ See <https://www.mdpi.com/1660-4601/17/8/2690> (The treatment is symptomatic, and oxygen therapy represents the major treatment intervention for patients with severe infection. Mechanical ventilation may be necessary in cases of respiratory failure refractory to oxygen therapy, whereas hemodynamic support is essential for managing septic shock [37]. Different strategies can be used depending on the severity of the patient and local epidemiology [38,39]. Home management is appropriate for asymptomatic or paucisintomatic patients. They need a daily assessment of body temperature, blood pressure, oxygen saturation and respiratory symptoms for

37. It has now been discovered by scientists that COVID-19 has several modes of transmission. Pursuant to a “Situation Report” released by the WHO, the virus can be transmitted through symptomatic transmission, pre-symptomatic transmission, or asymptomatic transmission.¹¹ Symptomatic transmission refers to transmission by an individual who is experiencing symptoms associated with the virus who then transfers COVID-19 to another individual. Data from published studies provide evidence that COVID-19 is primarily transmitted from symptomatic people to others who are in close contact through respiratory droplets, by direct contact with infected persons, or by contact with contaminated objects and surfaces.¹²

38. The incubation period for COVID-19, which is the time between exposure to the virus (becoming infected) and symptom onset, averages 5-6 days, however, it can be up to 14 days.¹³ During this period, also known as the “presymptomatic” period, some infected persons can be contagious. For that reason, transmission from a pre-symptomatic case can occur before symptom onset. Presymptomatic transmission still requires the virus to be spread through infectious droplets or touching contaminated surfaces.¹⁴

about 14 days. Management of such patients should focus on prevention of transmission to others and monitoring for clinical status with prompt hospitalization if needed.)

¹¹ https://www.who.int/docs/default-source/coronaviruse/situation-reports/20200402-sitrep-73-covid-19.pdf?sfvrsn=5ae25bc7_2

¹² See https://www.who.int/docs/default-source/coronaviruse/situation-reports/20200402-sitrep-73-covid-19.pdf?sfvrsn=5ae25bc7_2 (Data from clinical and virologic studies that have collected repeated biological samples from confirmed patients provide evidence that shedding of the COVID-19 virus is highest in upper respiratory tract (nose and throat) early in the course of the disease. That is, within the first 3 days from onset of symptoms. Preliminary data suggests that people may be more contagious around the time of symptom onset as compared to later on in the disease.)

¹³ https://www.who.int/docs/default-source/coronaviruse/situation-reports/20200402-sitrep-73-covid-19.pdf?sfvrsn=5ae25bc7_2

¹⁴ See <https://www.who.int/docs/default-source/coronaviruse/situation-reports/20200402->

39. An individual who does not develop symptoms, an asymptomatic case of COVID-19, can still transmit the virus to another. Though there are few documented cases reported, it does not exclude the possibility that it has or may occur.¹⁵

40. Not only is COVID-19 transmitted via human-to-human, but the WHO and scientific studies have confirmed that the virus can live on contaminated objects or surfaces. According to a study by scientists documented in *The New England Journal of Medicine*, COVID-19 was detectable in aerosols for up to three hours, up to four hours on copper, up to 24 hours on cardboard, and up to two to three days on plastic and stainless steel.¹⁶ All of these materials are used in the preparation and service of food by restaurants. The results of the study suggest that individuals could get COVID-19 through indirect contact with surfaces or objects used by an infected person, whether they were symptomatic.

41. Another scientific study documented in the *Journal of Hospital Infection* found that human coronaviruses, such as SARS-CoV and MERS-CoV can remain infectious on inanimate

sitrep-73-covid-19.pdf?sfvrsn=5ae25bc7_2 (In a small number of case reports and studies, pre-symptomatic transmission has been documented through contact tracing efforts and enhanced investigation of clusters of confirmed cases. This is supported by data suggesting that some people can test positive for COVID-19 from 1-3 days before they develop symptoms. Thus, it is possible that people infected with COVID-19 could transmit the virus before significant symptoms develop.)

¹⁵ https://www.who.int/docs/default-source/coronaviruse/situation-reports/20200402-sitrep-73-covid-19.pdf?sfvrsn=5ae25bc7_2

¹⁶ See <https://www.nih.gov/news-events/news-releases/new-coronavirus-stable-hours-surfaces>; See <https://www.who.int/news-room/commentaries/detail/modes-of-transmission-of-virus-causing-covid-19-implications-for-ipc-precaution-recommendations> (In the context of COVID-19, airborne transmission may be possible in specific circumstances and settings in which procedures or support treatments that generate aerosols are performed; *i.e.*, endotracheal intubation, bronchoscopy, open suctioning, administration of nebulized treatment, manual ventilation before intubation, turning the patient to the prone position, disconnecting the patient from the ventilator, non-invasive positive-pressure ventilation, tracheostomy, and cardiopulmonary resuscitation.)

surfaces at room temperature for up to nine days.¹⁷ At a temperature of 30 degrees Celsius or more, the duration of persistence is shorter. Contamination of frequently touched surfaces is, therefore, a potential source of viral transmission.¹⁸ Though this study was not conclusive on COVID-19 itself, scientists are still grappling to understand this implication.

42. On March 27, 2020, the Centers for Disease Control and Prevention (“CDC”) released a report entitled “*Public Health Responses to COVID-19 Outbreaks on Cruise Ships - Worldwide, February - March 2020.*”¹⁹ The report detailed that during this time frame, COVID-19 outbreaks associated with three different cruise ship voyages caused over 800 confirmed cases and 10 deaths.²⁰ Of the individuals tested, a high proportion were found to be asymptomatic, which may explain the high rates on cruise ships. What is interesting about this study though, is

¹⁷ See <https://www.journalofhospitalinfection.com/action/showPdf?pii=S0195-6701%2820%2930046-3>

¹⁸ See <https://www.journalofhospitalinfection.com/action/showPdf?pii=S0195-6701%2820%2930046-3> (Although the viral load of coronaviruses on inanimate surfaces is not known during an outbreak situation it seem plausible to reduce the viral load on surfaces by disinfection, especially of frequently touched surfaces in the immediate patient surrounding where the highest viral load can be expected. The WHO recommends “to ensure that environmental cleaning and disinfection procedures are followed consistently and correctly.”)

¹⁹ https://www.cdc.gov/mmwr/volumes/69/wr/mm6912e3.htm?s_cid=mm6912e3_w

²⁰ See https://www.cdc.gov/mmwr/volumes/69/wr/mm6912e3.htm?s_cid=mm6912e3_w (During February 7–23, 2020, the largest cluster of COVID-19 cases outside mainland China occurred on the Diamond Princess cruise ship, which was quarantined in the port of Yokohama, Japan, on February 3 (3). On March 6, cases of COVID-19 were identified in persons on the Grand Princess cruise ship off the coast of California; that ship was subsequently quarantined. By March 17, confirmed cases of COVID-19 had been associated with at least 25 additional cruise ship voyages. On February 21, CDC recommended avoiding travel on cruise ships in Southeast Asia; on March 8, this recommendation was broadened to include deferring all cruise ship travel worldwide for those with underlying health conditions and for persons aged ≥ 65 years. On March 13, the Cruise Lines International Association announced a 30-day voluntary suspension of cruise operations in the United States. CDC issued a level 3 travel warning on March 17, recommending that all cruise travel be deferred worldwide.)

that COVID-19 was identified on a variety of surfaces in cabins of both symptomatic and asymptomatic infected passengers up to 17 days after cabins were vacated on the Diamond Princess cruise line, but before disinfection procedures had been conducted.²¹ The CDC notes that more studies are required to understand the perpetuation of transmission, but what is clear is the uncertainty around COVID-19 and its implications for the lawful and safe functioning of a variety of businesses, most significantly, food service businesses

43. Without a vaccine to protect against COVID-19, effective control of the outbreak relies on measures designed to reduce human to human and surface to human exposure. Recent information on the CDC's website provides that COVID-19 spreads when people are within six feet of each other or when a person comes in contact with a surface or object that has the virus on it.²² Various other sources state that close contact with a person with the virus or surfaces where the virus is found can transmit the virus.²³

²¹ See https://www.cdc.gov/mmwr/volumes/69/wr/mm6912e3.htm?s_cid=mm6912e3_w (Cruise ships are often settings for outbreaks of infectious diseases because of their closed environment, contact between travelers from many countries, and crew transfers between ships. On the Diamond Princess, transmission largely occurred among passengers before quarantine was implemented, whereas crew infections peaked after quarantine/ On the Grand Princess, crew members were likely infected on voyage A and then transmitted SARS-CoV-2 to passengers on voyage B. The results of testing of passengers and crew on board the Diamond Princess demonstrated a high proportion (46.5%) of asymptomatic infections at the time of testing. Available statistical models of the Diamond Princess outbreak suggest that 17.9% of infected persons never developed symptoms. A high proportion of asymptomatic infections could partially explain the high attack rate among cruise ship passengers and crew...Although these data cannot be used to determine whether transmission occurred from contaminated surfaces, further study of fomite transmission of SARS-CoV-2 aboard cruise ships is warranted.)

²² <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-COVID-spreads.html>

²³ *Persistence of coronaviruses on inanimate surfaces and their inactivation with biocidal agents*, Vol. 104, Kemp., G., et al., Journal of Hospital Infection, No. 3, March 2020, pages 246-251 (remains infectious from 2 hours to 28 days depending on conditions); see also <https://www.ucsf.edu/news/2020/02/416671/how-new-coronavirus-spreads-and-progresses-and->

44. The secondary exposure of the surface to humans is particularly acute in places where the public gathers typically to socialize, eat, drink, shop, be entertained, and go for recreation. This is why the CDC recommends that in viral outbreaks individuals who are infected stay at home and those who are not sick engage in preventive measures such as constant hand washing and avoiding activities that would bring them into close proximity of people with the virus or surfaces where the virus may reside. However, because these recommendations have proven ineffective to minimize the spread of COVID-19, containment efforts have led to civil authorities issuing orders closing non-essential business establishments, including restaurants, bars, hotels, theaters, personal care salons, gyms, and schools, and mandating social distancing among the population. This has caused the cancelation of sporting events, parades, and concerts, the closure of amusement parks, and substantial travel restrictions. In addition, to conserve medical supplies, orders have been issued prohibiting the performance of non-urgent or non-emergency elective procedures and surgeries, forcing the suspension of operations at many medical, surgical, therapeutic, and dental practices.

45. All but six states have enacted “stay-at-home” orders, thirty-five states have closed all non-essential businesses with other states enacting measures to curtail business operations, all fifty states have closed schools, and all but one state has closed restaurants and bars for services other than take-out and delivery (the “Closure Orders”).²⁴

[why-one-test-may-not-be-enough](https://www.nytimes.com/2020/03/02/health/coronavirus-how-it-spreads.html) (doorknobs and table tops can contain the virus); <https://www.nytimes.com/2020/03/02/health/coronavirus-how-it-spreads.html> (virus can remain on metal, glass and plastic for several days).

B. Defendants' Standard Uniform All-Risk Commercial Property Insurance Policies

46. Hartford's insurance policies issued to Plaintiffs and the Class Members are "all risk" commercial property policies which cover loss or damage to the covered premises resulting from all risks other than those expressly excluded.

47. Plaintiffs' Policy, as well as the policies of other Class Members, are standard forms that are used by Hartford for all insureds having applicable coverage.

C. Plaintiffs' Factual Allegations

48. Among the coverages provided by the Policy was business interruption insurance, which, generally, would indemnify Plaintiffs for lost income and profits in the event that their businesses were shut down.

49. SA Plaintiffs' Property Choice – Special Business Income Coverage Form (Business Interruption), Form PC 00 20 01 13 provided coverage as follows:

We will pay up to the Special Business Income Business Income Limit of Insurance stated in the Property Choice Schedule of Premises and Coverages for the actual loss of Business Income you sustain the actual, necessary and reasonable Extra Expense you incur due to the necessary interruption of your business operations during the Period of Restoration due to direct physical loss of or direct physical damage to. property caused by or resulting from a Covered Cause of Loss at "Scheduled Premises" where a limit of insurance is shown for Special Business Income. If you are a tenant, this Coverage applies to portion of the building which you rent, lease occupy, and extends to common service areas and access routes to your area.

50. In addition SA Plaintiff's Policy contained Property Choice Special Business Income – Additional Coverages, Form PC 26 02 01 13, which provides:

This insurance is extended to apply to the actual loss of Business Income you sustain and the actual, necessary and reasonable Extra Expense you incur when access to your "Scheduled Properties" is specifically prohibited by order of a civil authority as the direct result of a Covered Cause of Loss to property in the immediate area of your "Scheduled Premises".

51. Under both SA Plaintiffs' Policy, Business Income is defined as:

- a. Net Income (Net Profit or Net Loss before income taxes), including Income and Royalties, that would have been earned or incurred; and
- b. Continuing normal operating expenses incurred, including Payroll Expenses.

52. Under the SA Plaintiffs' Property Choice Special Business Income – Additional

Coverages form, Extra Expense is defined as:

the actual, necessary and reasonable expenses you incur during the Period of Restoration that you would not have incurred if there had been no direct physical loss of or direct physical damage to property caused by or resulting from a Covered Cause of Loss at "Scheduled Premises". We will pay Extra Expense (other than the expense to repair or replace property) to:

- a. Avoid or minimize suspension of business and to continue operation at a "Scheduled Premises" or at replacement premises or temporary locations including relocation expenses and costs to equip and operate the replacement location or temporary location.
- b. Minimize the suspension of business if you cannot continue operations. We will also pay Extra Expenses to repair or replace property, but only to the extent reduces the amount of loss that otherwise would have been payable under the Coverage Form.
- c. Extra Expense Coverage does not apply to any expense related to any recall of products you manufacture, handle or distribute.

53. In the SA Plaintiff's Policy defines Causes of Loss in a separate form of the Policy, Property Choice – Covered Causes of Loss and Exclusions Form, Form PC 10 10 01 13. A Covered Cause of Loss "means direct physical loss or direct physical damage that occurs during the Policy period and in the Coverage Territory unless the loss or damage is excluded or limited in this policy."

54. The interruption of Plaintiffs' and other class members' businesses was not caused by any of the exclusions set forth in the applicable Policy.

55. The Policy contains an endorsement entitled New York – Exclusion of Loss Due To Virus or Bacteria, Form PC 35 31 10 14, which provides:

We will not pay for loss or damage caused by or resulting from any virus, bacterium or other microorganism that induces or is capable of inducing physical distress, illness or disease.

56. Plaintiffs and all similarly situated Class members have suffered a direct physical loss of and damage to their property because they have been unable to use their property for its intended purpose.

57. The exclusion contained in the Virus and Bacteria endorsement is not applicable because Plaintiffs', and other class members', losses were not caused by a "virus, bacterium or other microorganism that induces or is capable of inducing physical distress, illness or disease". Rather, the efficient proximate cause of Plaintiffs', and other Class Members' losses, were precautionary measures taken by their respective States to prevent the spread of COVID-19 in the future, not because coronavirus was found in or on Plaintiffs' insured property.

58. Notwithstanding the foregoing, by way of letter dated April 8, 2020, the Hartford denied SA Plaintiffs' claim for business interruption losses under the Policy because their properties had not suffered any direct physical loss and because the losses were excluded by the bacteria and virus exclusion endorsement, and other exclusions which were not applicable to Plaintiffs' losses.

D. The COVID-19 Pandemic has Affected Policyholders Nationwide.

59. COVID-19 is physically impacting private commercial property in New York and throughout the United States, threatening the survival of thousands of restaurants, retail establishments, and other businesses that have had their business operations suspended or curtailed indefinitely by order of civil authorities.

60. No insurer intends to cover any losses caused by the COVID-19 pandemic.

61. For example, a bipartisan group from the U.S. House of Representatives recently sent a letter to various insurance industry trade groups requesting that their members recognize

financial losses relating to COVID-19 under the standard commercial interruption coverage. In response, the industry trade groups stated: “Business interruption policies do not, and were not designed to, provide coverage against communicable diseases such as COVID-19.”²⁵ Upon information and belief, Hartford belongs to and supports the trade groups’ position.

62. In addition, many state departments of insurance have issued advisories to business owners that COVID-19 is not an insured peril and there will be no coverage for business interruption. This is disinformation being published to discourage business owners from filing claims.

63. For instance, Arkansas Insurance Department Bulletin No. 9-2020 states that “In most BII policies, coverage is triggered when the policyholder sustains physical damage to insured property caused by a covered peril resulting in quantifiable business interruption loss . . . viruses and disease are typically NOT an insured peril unless added by endorsement (emphasis in the original).”²⁶

64. The South Carolina Department of Insurance issues “Guidance” on business interruption insurance stating that under the business income policy, there likely is no coverage from losses resulting from a virus.²⁷

65. Members of the insurance industry have also been actively advising Insurance Commissioners that they do not intend to provide coverage for business interruption related to COVID-19. As a result, many small businesses that maintain commercial multi-peril insurance

²⁵ <https://www.insurancejournal.com/news/national/2020/03/20/561810.htm>

²⁶ <https://insurance.arkansas.gov/uploads/resource/documents/9-2020.pdf>

²⁷ <https://www.doi.sc.gov/948/COVID-19>

policies with business interruption coverage will have significant uninsured losses because the insurance industry is stating that such policies do not cover COVID-19.

66. For instance, the State of Connecticut Insurance Department, Maryland Insurance Administration and the West Virginia Office of the Insurance Commissioner issued nearly identical notices supporting the insurance companies' reasons for denying business interruption claims, stating that the potential loss costs from such perils [like COVID-19] are so extreme that providing coverage would jeopardize the financial solvency of property insurers.²⁸

67. John F. King, Insurance and Safety Fire Commission for the State of Georgia issued Bulletin 20-EX-3 stating that losses from COVID-19 are excluded losses.²⁹ Vicki Schmidt, Kansas Insurance Department Commission issued a similar Bulletin stating it was her "understanding it is unlikely that a business policy would cover losses related to COVID-19."³⁰

68. Other state governments expect that insurance companies will breach their obligation to provide coverage for business losses due to the COVID-19 pandemic and have introduced bills requiring every insurance policy insuring against loss or damage to property, which includes the loss of use and occupancy and business interruption, be construed to include, among other covered perils, coverage for business interruption because of global virus transmission or pandemic.³¹

69. A declaratory judgment determining that the business income loss and extra expense coverage provided in common all-risk commercial property insurance policies applies to the suspension, curtailment, and interruption of business operations resulting from measures put into place by civil authorities is necessary to prevent the Plaintiffs and similarly situated Class members from being denied critical coverage for which they have paid.

CLASS ACTION ALLEGATIONS

70. Plaintiffs bring this lawsuit pursuant to Federal Rule of Civil Procedure 23(a) and (b)(3) on behalf of themselves and all other persons similarly situated.

71. The Nationwide Class is defined as:

All entities who have entered into standard all-risk commercial property insurance policies with Hartford, where such policies provide for business income loss and extra expense coverage and do not exclude coverage for pandemics, and who have suffered losses due to measures put in place by civil authorities to stop the spread of COVID-19.

The New York Sub-Class is defined as:

All entities who have entered into standard all-risk commercial property insurance policies with Hartford to insure property in New York, where such policies provide for business income loss and extra expense coverage and do not exclude coverage for pandemics, and who have suffered losses due to measures put in place by civil authorities to stop the spread of COVID-19.

Excluded from each class are the Defendants, their employees, officers, directors, legal representatives, heirs, successors, and wholly or partly owned subsidiaries or affiliated companies; Class Counsel and their employees; and the judicial officers and their immediate family members and associated court staff assigned to this case.

No. 3844); Sate of New York (Assembly 10226); and Ohio (House Bill No. 589).

72. Plaintiffs reserve the right to modify, expand, or amend the definitions of the proposed classes following the discovery period and before the Court determines whether class certification is appropriate.

73. Certification of Plaintiffs' claims for class-wide treatment is appropriate because Plaintiffs can prove the elements of their claims on a class-wide basis using the same evidence as would prove those elements in individual actions alleging the same claims.

Numerosity

74. This action satisfies the requirements of Fed.R.Civ.P. 23(a)(1). The Class numbers at least in the hundreds and consists of geographically dispersed business entities who are insured for business interruption losses. Hartford sells many insurance policies in the State of New York and most, if not all, other states and therefore joinder of the Class members is impracticable.

75. The identity of Class members is ascertainable, as the names and addresses of all Class members can be identified in Hartford's or their agent's books and records. Plaintiffs anticipate providing appropriate notice to the certified Class in compliance with Fed.R.Civ.P. 23(c)(2)(A) and/or (B), to be approved by the Court after class certification, or pursuant to court order under Fed. R. Civ. P. 23(d).

Typicality

76. This action satisfies the requirements of Fed.R.Civ.P. 23(a)(3) because Plaintiffs' claims are typical of the claims of each of the Class members, as all Class members were and are similarly affected and their claims arise from the same all-risk commercial property insurance policy provisions entered into with Hartford. Each Class member's insurance policy contains the same form providing coverage for business income loss. None of the forms exclude coverage due to a governmental action intended to reduce the effect of the ongoing global pandemic. As a result,

a declaratory judgment as to the rights and obligations under Plaintiffs' Policy will address the rights and obligations of all Class members.

Adequacy of Representation

77. Plaintiffs are committed to prosecuting the action, will fairly and adequately protect the interests of the members of the Class, and has retained counsel competent and experienced in class action litigation, including litigation relating to insurance policies. Plaintiffs have no interests antagonistic to or in conflict with other members of the Class. Plaintiffs anticipate no difficulty in the management of this litigation as a class action.

Commonality

78. This action satisfies the requirements of Fed.R.Civ.P. 23(a)(2) because there are questions of law and fact that are common to each of the classes. These common questions predominate over any questions affecting only individual Class members. The questions of law and fact common to the Class include, but are not limited to:

- a. Whether there is an actual controversy between Plaintiffs and Hartford as to the rights, duties, responsibilities and obligations of the parties under the business interruption coverage provisions in standard all-risk commercial property insurance policies;
- b. Whether measures to reduce the spread of the COVID-19 pandemic are excluded from Plaintiffs' and the Class members standard all-risk commercial property insurance policies;
- c. Whether the measures put in place by civil authorities to stop the spread of COVID-19 caused physical loss or damage to covered commercial property;
- d. Whether Hartford has repudiated and anticipatorily breached the all-risk commercial property insurance policies the issued with business interruption coverage by intending to deny claims for coverage; and
- e. Whether Plaintiffs and the Class members suffered damages as a result of the anticipatory breach by Hartford.

Superiority/Predominance

79. This action satisfies the requirements of Fed.R.Civ.P. 23(b)(3). A class action is superior to other available methods for the fair and efficient adjudication of the rights of the Class members. The joinder of individual Class members is impracticable because of the vast number of Class members who have entered into the standard all-risk commercial property insurance policies with the Defendants.

80. Because a declaratory judgment as to the rights and obligations under the uniform all-risk commercial property insurance policies will apply to all Class members, most or all Class Members would have no rational economic interest in individually controlling the prosecution of specific actions. The burden imposed on the judicial system by individual litigation, and to Hartford, by even a small fraction of the Class members, would be enormous.

81. In comparison to piecemeal litigation, class action litigation presents far fewer management difficulties, far better conserves the resources of both the judiciary and the parties, and far more effectively protects the rights of each Class member. The benefits to the legitimate interests of the parties, the Court, and the public resulting from class action litigation substantially outweigh the expenses, burdens, inconsistencies, economic infeasibility, and inefficiencies of individualized litigation. Class adjudication is superior to other alternatives under Fed.R.Civ.P. 23(b)(3)(D). Class treatment will also avoid the substantial risk of inconsistent factual and legal determinations on the many issues in this lawsuit.

82. Plaintiffs know of no obstacles likely to be encountered in the management of this action that would preclude its maintenance as a class action. Rule 23 provides the Court with the authority and flexibility to maximize the efficiencies and benefits of the class mechanism and reduce management challenges. The Court may, on motion of Plaintiffs or on its own

determination, certify nationwide and statewide classes for claims sharing common legal questions; use the provisions of Rule 23(c)(4) to certify particular claims, issues, or common questions of law or of fact for class-wide adjudication; certify and adjudicate bellwether class claims; and use Rule 23(c)(5) to divide any Class into subclasses.

COUNT I
DECLARATORY JUDGMENT – BUSINESS INCOME COVERAGE
(Claim Brought on Behalf of the National Class and New York Subclass)

83. Plaintiffs repeat the allegations set forth in paragraphs 1-82 as if fully set forth herein.

84. Plaintiffs bring this Count individually and on behalf of the other members of the National Class and New York Subclass.

85. Plaintiffs' Hartford Policy, as well as those of the other Class Members, are contracts under which Hartford was paid premiums in exchange for its promise to pay Plaintiffs' and the other Class Members' losses for claims covered by the Policy.

86. Plaintiffs and other Class Members have complied with all applicable provisions of the Policies and/or those provisions have been waived by Hartford or Hartford is estopped from asserting them, and yet Hartford has abrogated its insurance coverage obligations pursuant to the Policies' clear and unambiguous terms and has wrongfully and illegally refused to provide coverage to which Plaintiffs and Class Members are entitled.

87. Hartford has denied claims related to COVID-19 on a uniform and class-wide basis, without individual bases or investigations, so the Court can render declaratory judgment no matter whether members of the Class have filed a claim.

88. An actual case or controversy exists regarding Plaintiffs' and the other Class Members' rights and Hartford's obligations under the Policies to reimburse Plaintiffs and Class

Members for the full amount of Business Income losses incurred by Plaintiffs and the other Class Members in connection with the suspension of their businesses stemming from Orders intended to mitigate the COVID-19 pandemic.

89. Pursuant to 28 U.S.C. § 2201, Plaintiffs and the other Class Members seek a declaratory judgment from this Court declaring the following:

- i. Plaintiffs' and the other Class Members' Business Income losses incurred in connection with the Closure Order and the necessary interruption of their businesses stemming from Orders intended to mitigate the COVID-19 pandemic are insured losses under their Policies; and
- ii. Hartford is obligated to pay Plaintiffs and other Class Members for the full amount of the Business Income losses incurred and to be incurred in connection with the Closure Order during the period of restoration and the necessary interruption of their businesses stemming from Orders intended to mitigate the COVID-19 pandemic.

COUNT II

BREACH OF CONTRACT – BUSINESS INCOME COVERAGE (Claim Brought on Behalf of the National Class and New York Subclasses)

90. Plaintiffs repeat the allegations set forth in paragraphs 1-89 as if fully set forth herein.

91. Plaintiffs bring this Count individually and on behalf of the other members of the National Class and New York Subclass.

92. Plaintiffs' Hartford Policy, as well as those of the other Class members, are contracts under which Hartford was paid premiums in exchange for its promise to pay Plaintiffs' and the other Class Members' losses for claims covered by the Policy.

93. In the business interruption coverage, Hartford agreed to pay for its insureds' actual loss of Business Income sustained due to the necessary suspension of its operations during the "period of restoration."

94. Hartford also agreed to pay for its insureds' actual loss of Business Income sustained due to the necessary "interruption of [their] operations" during the "Period of Restoration" caused by direct physical loss or damage.

95. "Business Income" under the Policy means the "Net Income (Net Profit or Net Loss before income taxes), including Income and Royalties, that would have been earned or incurred", as well as "[c]ontinuing normal operating expenses incurred, including Payroll Expenses"

96. The Closure Orders caused direct physical loss and damage to Plaintiffs' and the other Class Members' Covered Properties, requiring suspension of operations at the Covered Properties. Losses caused by the Closure Orders thus triggered the Business Income provision of Plaintiffs' and the other Class Members' Hartford policies.

97. Plaintiffs and the other Class Members have complied with all applicable provisions of their policies and/or those provisions have been waived by Hartford or Hartford estopped from asserting them, and yet Hartford has abrogated its insurance coverage obligations pursuant to the Policies' clear and unambiguous terms.

98. By denying coverage for any Business Income losses incurred by Plaintiffs and other Class Members as a result of the Closure Orders and Orders intended to mitigate the COVID-19 pandemic, Hartford has breached its coverage obligations under the Policies.

99. As a result of Hartford's breaches of the Policies, Plaintiffs and the other Class Members have sustained substantial damages for which Hartford is liable, in an amount to be established at trial.

COUNT III
DECLARATORY JUDGMENT – CIVIL AUTHORITY COVERAGE
(Claim Brought on Behalf of the National Class and New York Subclass)

100. Plaintiffs repeat the allegations set forth in paragraphs 1-99 as if fully set forth herein.

101. Plaintiffs bring this Count individually and on behalf of the other members of the National Class and New York Subclass.

102. Plaintiffs' Hartford Policy, as well as those of the other Class Members, are contracts under which Hartford was paid premiums in exchange for its promise to pay Plaintiffs' and other Class members' losses for claims covered by the Policy.

103. Plaintiffs and Class members have complied with all applicable provisions of the Policies and/or those provisions have been waived by Hartford or Hartford is estopped from asserting them, and yet Hartford has abrogated its insurance coverage obligations pursuant to the Policies' clear and unambiguous terms and has wrongfully and illegally refused to provide coverage to which Plaintiffs and Class Members are entitled.

104. Hartford has denied claims related to COVID-19 on a uniform and class wide basis, without individual bases or investigations, so the Court can render declaratory judgment no matter whether members of the Class have filed a claim.

105. An actual case or controversy exists regarding Plaintiffs' and other Class Members' rights and Hartford's obligations under the Policies to reimburse Plaintiffs and other Class Members for the full amount of covered Civil Authority losses incurred by Plaintiffs and other Class Members in connection with Closure Orders and the necessary interruption of their businesses stemming from the Orders intended to mitigate the COVID-19 pandemic.

106. Pursuant to 28 U.S.C. § 2201, Plaintiffs and other Class Members seek a declaratory judgment from this Court declaring the following:

- i. Plaintiffs' and other Class Members' Civil Authority losses incurred in connection with the Closure Orders and the necessary interruption of their businesses stemming from the COVID-19 pandemic are insured losses under their Policies; and
- ii. Hartford is obligated to pay Plaintiffs and other Class members the full amount of the Civil Authority losses incurred and to be incurred in connection with the covered losses related to the Closure Orders and the necessary interruption of their businesses stemming from the Orders intended to mitigate the COVID-19 pandemic.

COUNT IV
BREACH OF CONTRACT – CIVIL AUTHORITY COVERAGE
(Claim Brought on Behalf of the National Class and New York Subclasses)

107. Plaintiffs repeat the allegations set forth in paragraphs 1-106 as if fully set forth herein.

108. Plaintiffs bring this Count individually and on behalf of the other members of the National Class and New York Subclass.

109. Plaintiffs' Policy, as well as those of the other Class Members, are contracts under which Hartford was paid premiums in exchange for its promise to pay Plaintiffs' and the other Class Members' losses for claims covered by the policy.

110. Plaintiff's Policy provided for "Civil Authority" coverage, which promises to pay "the actual loss of Business Income you incur and the actual, necessary and reasonable Extra Expense you incur when access to your 'Scheduled Properties' is specifically prohibited by order of a civil authority as the direct result of a Covered Cause of Loss to property in the immediate area of your 'Scheduled Premises'".

111. The Closure Orders triggered the Civil Authority provision under Plaintiffs' and the other members of the Class' Hartford Policies.

112. Plaintiffs and the other members of the Class have complied with all applicable provisions of the Policies and/or those provisions have been waived by Hartford or Hartford is estopped from asserting them, and yet Hartford has abrogated its insurance coverage obligations pursuant to the Policies' clear and unambiguous terms.

113. By denying coverage for any business losses incurred by Plaintiffs and other members of the Class in connection with the Closure Order and Orders intended to mitigate the COVID-19 pandemic, Hartford has breached its coverage obligations under the Policies.

114. As a result of Hartford's breaches of the Policies, Plaintiffs and the other members of the Class have sustained substantial damages for which Hartford is liable, in an amount to be established at trial.

COUNT V
DECLARATORY JUDGMENT – EXTRA EXPENSE COVERAGE
(Claim Brought on Behalf of the National Class and New York Subclass)

115. Plaintiffs repeat the allegations set forth in paragraphs 1-114 as if fully set forth herein.

116. Plaintiffs bring this Count individually and on behalf of the other members of the National Class and the New York Subclass.

117. Plaintiffs' Hartford Policy, as well as those of other Class Members, are contracts under which Hartford was paid premiums in exchange for its promise to pay Plaintiffs' and other Class Members' losses for claims covered by the Policy.

118. Plaintiffs and other Class Members have complied with all applicable provisions of the Policies and/or those provisions have been waived by Hartford or Hartford is estopped from asserting them, and yet Hartford has abrogated its insurance coverage obligations pursuant to the

Policies' clear and unambiguous terms and has wrongfully and illegally refused to provide coverage to which Plaintiffs and Class Members are entitled.

119. Hartford has denied claims related to COVID-19 on a uniform and class wide basis, without individual bases or investigations, so the Court can render declaratory judgment no matter whether members of the Class have filed a claim.

120. An actual case or controversy exists regarding Plaintiffs' and other Class Members' rights and Hartford's obligations under the Policies to reimburse Plaintiffs and the other Class Members for the full amount of Extra Expense losses incurred by Plaintiff and Class Members in connection with Closure Orders and the necessary interruption of their businesses stemming from Orders intended to mitigate the COVID- 19 pandemic.

121. Pursuant to 28 U.S.C. § 2201, Plaintiffs and other Class Members seek a declaratory judgment from this Court declaring the following:

- i. Plaintiffs' and other Class Members' Extra Expense losses incurred in connection with the Closure Orders and the necessary interruption of their businesses stemming from Orders intended to mitigate the COVID-19 pandemic are insured losses under their Policies; and
- ii. Hartford is obligated to pay Plaintiffs and other Class Members for the full amount of the Extra Expense losses incurred and to be incurred in connection with the covered losses related to the Closure Orders during the period of restoration and the necessary interruption of their businesses stemming from Orders intended to mitigate the COVID-19 pandemic.

COUNT VI

BREACH OF CONTRACT – EXTRA EXPENSE COVERAGE (Claim Brought on Behalf of the National Class and New York Subclass)

122. Plaintiffs repeat the allegations set forth in paragraphs 1-121 as if fully set forth herein.

123. Plaintiffs bring this Count individually and on behalf of the other members of the National Class and New York Subclass.

124. Plaintiffs' Hartford Policy, as well as those of the other Class Members, are contracts under which Hartford was paid premiums in exchange for its promise to pay Plaintiffs' and the other Class Members' losses for claims covered by the Policy.

125. Plaintiffs' Policy provided that Hartford agreed to pay necessary Extra Expense that its insureds incur during the "period of restoration" that the insureds would not have incurred if there had been no direct physical loss or damage to the described premises. "Extra Expense" means expenses "to avoid or minimize the suspension of business and to continue 'operations,'" and to repair or replace property.

126. Due to the Closure Orders, Plaintiffs and other members of the Class incurred Extra Expense at Covered Property

127. Plaintiffs and other members of the Class have complied with all applicable provisions of the Policies and/or those provisions have been waived by Hartford or Hartford is estopped from asserting them, and yet Hartford has abrogated its insurance coverage obligations pursuant to the Policies' clear and unambiguous terms.

128. By denying coverage for any business losses incurred by Plaintiffs and other members of the Class in connection with the Closure Order and Orders intended to mitigate the COVID-19 pandemic, Hartford has breached its coverage obligations under the Policies.

129. As a result of Hartford's breaches of the Policies, Plaintiffs and the other members of the Class have sustained substantial damages for which Hartford is liable, in an amount to be established at trial.

WHEREFORE, Plaintiffs, on behalf of themselves and all similarly situated individuals, demand judgment against the Defendants as follows:

(1) Declaring this action to be a proper class action maintainable pursuant to Fed.R.Civ.P. 23(a) and Rule 23(b)(3) and declaring Plaintiffs and their counsel to be representatives of the Class;

(2) Issuing a Declaratory Judgment declaring the Parties' rights and obligations under the insurance policies;

(3) Awarding Plaintiffs and the Class compensatory damages from Hartford's breach of the insurance policies in an amount to be determined at trial, together with appropriate prejudgment interest at the maximum rate allowable by law;

(4) Awarding Plaintiffs and the Class costs and disbursements and reasonable allowances for the fees of Plaintiffs' and the Class's counsel and experts, and reimbursement of expenses; and

(5) Awarding such other and further relief the Court deems just, proper, and equitable.
